

REMARKS

Applicants would like to thank Examiner Shameem for calling the Applicants to make them aware that Figures 1 and 2 of the allowed application needed to be removed from the text of the Specification prior to issuance of the patent. At the Examiner's request, Applicants have deleted the Figures 1 and 2 from pages 64 and 67, respectively, of the specification and resubmitted the Figures as drawings to the application. Additionally, Applicants have added a section entitled a "Brief Description of the Figures" to page 7 of the specification and amended the text on pages 63 and 66 to remove text referring to the resubmitted drawings. These amendments do not add any new matter to the allowed application and merely seek to put the allowed application in a form suitable for publication.

Once again the Applicants thank Examiner Shameem. The Applicants now believe the allowed application is in a form suitable for publication.

Respectfully submitted,

Date: 4/14/04
